Vacant  
For  
Sale

## AU VACANT LAND

Owners of vacant land are exposed to liability risks that can impact their investment and future construction plans. If the vacant land is financed with future development in mind, the lending organization will require the owner to purchase liability insurance. Even if the land is owned outright, liability insurance should also be purchased to protect the owner's assets from potential claims. The AU Vacant Land program is designed to provide property owners with liability insurance to protect against third-party claims.

The AUGold online quoting platform provides access to customized coverage solutions for these hard-to-place risks and other products supported by longstanding underwriting expertise and experience. Work with a partner dedicated to this space and leverage the ability to expand your footprint with the AU Vacant Land product.

AUGold is here to help you protect your clients throughout the transitional real estate lifecycle, with the AU Collection of products, which also includes Vacant Property, Builder's Renovation, Course of Construction and Dwelling Fire.
