

Concorde has updated our log in process to increase cyber security and work with changing Single Sign On requirements for the carrier platform access we provide.

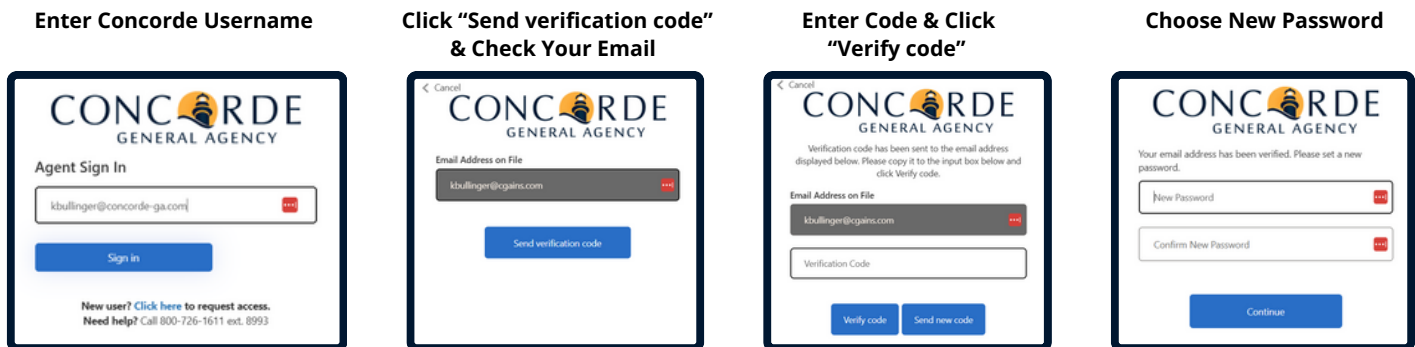

Visit Concorde's Website - cgains.com

Click "Agent Log In" > Site Will Redirect to Our New Log In Page

Enter Your Current Concorde Username & Set a New Password

If you have multiple Concorde Usernames, you will need to complete this process for each one.

Account Updates - [Click Here](#)

If you need to update your email address or any other account information, visit cgains.com and click "Request Access" for our agent access form. You can also use this form to request access for additional team members.

Password Managers

If you have multiple accounts & save passwords in your browser or a password manager (like Keeper or LastPass) you may need to **Disable Auto Fill** for our site to switch between accounts. You can Google "Disable Auto Fill for ____" and insert the browser or password manager you utilize for help. You will still be able to select saved usernames & passwords!
